

Seamless Steel Pipe For Marine Purpose

Our Product Introduction

Basic Information

- Place of Origin: cangzhou
- Brand Name: BaoYang
- Certification: CE & ISO
- Model Number: ASTM/DIN/GB/EN/JIS
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Export Packing
- Delivery Time: 7~30 working days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union

Product Specification

- Name: Seamless Carbon Steel Pipes
- Process: Hot Rolled Cold Rolled Cold Drawn
- Standards: ASTM/DIN/GB/EN/JIS
- Material: Carbon Steel
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Outer Diameter: 6-2500mm
- Processing Service: Bending, Punching, Cutting
- Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry
- Highlight: **en seamless steel pipe, gb seamless steel pipe, en seamless stainless steel pipe**

Product Description

Seamless Steel Pipe For Marine Purpose

Seamless steel pipes for marine purpose are specifically designed and manufactured to meet the requirements of marine applications. These pipes are made from high-quality carbon or alloy steel and have a seamless construction, ensuring excellent strength, corrosion resistance, and durability. They are designed to withstand the harsh marine environment, including exposure to saltwater, high humidity, and extreme temperatures.

Seamless steel pipes for marine purpose undergo rigorous testing and inspection to ensure they meet the necessary standards for marine applications. They are typically available in various grades and sizes to suit different marine engineering needs.

Applications:

Seamless steel pipes for marine purpose find extensive application in the marine industry, including but not limited to:

Shipbuilding: These pipes are widely used in shipbuilding for various applications such as piping systems, structural components, and exhaust systems. They provide reliable and efficient transportation of fluids and gases on ships.

Offshore Structures: In offshore oil and gas exploration and production, seamless steel pipes are utilized in platforms, pipelines, risers, and subsea equipment. They play a critical role in transporting oil, gas, and other resources from offshore fields to onshore facilities.

Marine Equipment and Machinery: Seamless steel pipes are used in marine equipment and machinery, including propulsion systems, cooling systems, and hydraulic systems. They ensure efficient and reliable operation in demanding marine conditions.

Port Infrastructure: These pipes are employed in various port infrastructure projects, such as docks, piers, and jetties. They are used for fluid and gas transportation, as well as structural support in port facilities.

Offshore Wind Energy: Seamless steel pipes are essential in the construction of offshore wind farms. They are used in the installation of wind turbine foundations, subsea cables, and support structures.

Standard Grades and Chemical Composition of Seamless Steel Pipes for Marine Use:

Standard	Grade	C (%)	Mn (%)	Si (%)	Cr (%)	Ni (%)	Mo (%)	Other Elements
API 5L	X42	0.05-0.25	1.0-1.3	-	-	-	-	Cu: max 0.40
	X52	0.05-0.25	1.0-1.3	-	-	-	-	Cu: max 0.40
	X60	0.05-0.25	1.0-1.3	-	-	-	-	Cu: max 0.40
ASTM A106/A106M	A106	0.05-0.30	0.30-0.60	up to 0.30	-	-	-	Cu: max 0.50
GB/T 5312	20	0.17-0.23	0.35-0.65	up to 0.30	-	-	-	Cu: max 0.30
GB/T 8163	10	0.07-0.13	0.35-0.65	up to 0.30	-	-	-	Cu: max 0.20
DIN 2391	St35.8	0.10-0.18	0.40-0.70	up to 0.35	-	-	-	Cu: max 0.30
JIS G3444	STKM11A	0.06-0.12	0.50-0.80	up to 0.30	-	-	-	Cu: max 0.25

Company Profile

BAOYANG · CHINA COMPANY INFORMATION

Cangzhou BaoYang Pipe Industry Co., Ltd

Cangzhou Baoyang Pipe Industry Co., Ltd. is located in the Hope New Area of Mengcun County, Hebei Province, China's pipeline equipment base. It is an enterprise that integrates spot storage of steel pipes, production of pipe fittings, and sales and exports. Our company mainly operates seamless pipes made of special materials, and has long-term good cooperative relationships with major steel mills such as Tianjin Seamless, Hengyang Hualing, Yantai Lubao, Inner Mongolia Baosteel, Shanghai Baosteel, Jiangsu Chengde, Anhui Tianda, etc. Our products are widely used in pipeline engineering fields such as petroleum, petrochemical, chemical, natural gas, thermal power, boilers, etc
