

ASTM A106 Grb Construction DN40-500 Carbon Steel Tube API 5L For Pipeline

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Certification: CE & ISO
- Model Number: Seamless Steel Pipe
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/A, T/T

Product Specification

- Processing Service: Bending, Punching, Cutting
- Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
- Process: Hot Rolled Cold Rolled Cold Drawn
- Material: Carbon Steel Alloy Steel
- Length: 6M 12M OR According To Customer Requirements
- Technology: Hot Rolled Cold Rolled
- Highlight: **Pipeline Carbon Steel Tube,
DN40 Carbon Steel Tube,
DN500 seamless carbon steel pipe**

Product Description

Product Description:

The Seamless Steel Pipe is known for its durability and reliability. It is designed to withstand high pressure and extreme temperatures, making it ideal for use in the oil and gas industry. The product is also commonly used in pipeline construction, as it is resistant to corrosion and can withstand harsh environmental conditions.

The Seamless Steel Pipe is available with beveled thread+couplings ends, which makes it easy to install. The product also comes with processing services such as bending, punching, and cutting, which makes it easy to customize according to customer requirements.

The Seamless Steel Pipe is a versatile product that can be used in a variety of applications. It is commonly used in the machinery industry, where it is used to manufacture a range of equipment and machinery. The product is also used in the construction industry, where it is used to build bridges, tunnels, and other structures.

Overall, the Seamless Steel Pipe is a high-quality product that is designed to meet the needs of a variety of industries. Its durability, reliability, and versatility make it an ideal choice for pipeline transport, oil/gas drilling, and machinery industry. If you are looking for a high-quality product that can withstand harsh conditions, the Seamless Steel Pipe is the perfect choice for you.

Features:

Product Name: Seamless Steel Pipe

Length: 6M 12M OR According To Customer Requirements

Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry

Process: Hot Rolled Cold Rolled Cold Drawn

Ends: Beveled Thread+Couplings

Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2

This Seamless Steel Pipe is perfect for Pipeline Steel Pipe, Carbon Steel Seamless Pipe, and Oil and Gas Steel Pipes.

Technical Parameters:

Length	6M 12M OR According To Customer Requirements
Standard	API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Ends	Beveled Thread+Couplings
Wall Thickness	1-20mm (0.04 Inch - 0.78 Inch)
Usage	Pipeline Transport, Oil/Gas Drilling, Machinery Industry
Name	Seamless Steel Pipe
Material	Carbon Steel Alloy Steel
Technology	Hot Rolled Cold Rolled
Processing Service	Bending, Punching, Cutting
Process	Hot Rolled Cold Rolled Cold Drawn

Seamless Steel Pipe For Fluid Transportation, Low Temperature Steel Pipe, Structural Steel Pipes

Applications:

The Seamless Steel Pipe is widely used in various industries such as oil and gas, petrochemical, chemical, power, construction, and water supply. It is commonly used for conveying fluids, such as oil, gas, and water. The product is suitable for low-temperature applications, making it ideal for use in the transportation of low-temperature fluids.

The Seamless Steel Pipe is highly versatile and can be used in a wide range of applications. It is commonly used for fluid transportation, such as the transportation of oil, gas, and water. The product is also suitable for use in high-pressure applications, making it ideal for use in the petrochemical and chemical industries.

The Seamless Steel Pipe is made of high-quality carbon steel, making it highly durable and resistant to corrosion. It is available in different models and wall thicknesses to suit diverse applications. The product is manufactured in compliance with the API, ASTM, and JIS standards, ensuring its quality and reliability.

BaoYang Seamless Steel Pipe is processed using advanced technology and can be bent, punched, and cut to suit different applications. The product has beveled thread+couplings ends, making it easy to install and connect.

In summary, BaoYang Seamless Steel Pipe is an excellent product that is widely used in various industries. It is suitable for low-temperature applications, fluid transportation, and high-pressure applications. The product is made of high-quality carbon steel and is manufactured in compliance with the API, ASTM, and JIS standards. It is highly versatile and can be bent, punched, and cut to suit different applications.

Support and Services:

Our Seamless Steel Pipe product is backed by comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experienced engineers and technicians are available to provide assistance with product selection, installation, troubleshooting, and maintenance. We also offer customization services to meet specific project requirements. In addition, we

provide training programs to help our customers enhance their knowledge and skills in using our product. With our commitment to quality and customer support, you can rely on our Seamless Steel Pipe product for your industrial and commercial applications.

Packing and Shipping:

Product Packaging:

Seamless steel pipes are securely bundled with steel straps or wrapped with plastic film to prevent scratches and damage during transportation.

The bundles are then placed on wooden pallets or in wooden boxes for added protection.

The ends of the pipes are protected with plastic caps.

Shipping:

Seamless steel pipes are typically shipped in 20-foot or 40-foot containers.

Shipping by bulk carrier or breakbulk vessel is also possible for larger quantities.

We work with reliable logistics partners to ensure timely and safe delivery of our products.
