

Corrosion Resistant Seamless Steel Pipes Hot Rolled For Pipeline Transport

Basic Information

- Place of Origin:
- Brand Name:
- Certification: CE & ISO

hebei, china

BaoYang

- Model Number: Seamless Steel Pipe
 Minimum Order 1
- Quantity:
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/A, T/T, Western Union

Product Specification

| • Ends: | Beveled Thread+Couplings |
|---------------------|--|
| Length: | 6M 12M OR According To Customer Requirements |
| Wall Thickness: | 1-20mm (0.04 Inch - 0.78 Inch) |
| Technology: | Hot Rolled Cold Rolled |
| Processing Service: | Bending, Punching, Cutting |
| • Usage: | Pipeline Transport, Oil/Gas Drilling, Machinery Industry |
| Material: | Carbon Steel Alloy Steel |
| • Standard: | API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2 |
| Highlight: | Pipeline Transport Seamless Steel Pipes, Corrosion Resistant Seamless Steel Pipes, Hot Rolled Seamless Steel Pipes |

Product Description:

Our Seamless Steel Pipe has a wall thickness ranging from 1-20mm (0.04 Inch - 0.78 Inch). It is made of Carbon Steel Alloy Steel, ensuring high resistance to corrosion and wear. Its sturdy construction guarantees long-lasting performance, making it a reliable choice for any project.

The Seamless Steel Pipe is available in both Hot Rolled and Cold Rolled technology, giving customers the flexibility to choose the most suitable option for their specific needs. Hot Rolled technology is ideal for applications that require higher yield strength, while Cold Rolled technology is ideal for applications requiring a smooth and polished surface finish.

The Ends of our Seamless Steel Pipe are available in two options: Beveled and Thread+Couplings. The Beveled ends have a sloping edge for easy welding, while the Thread+Couplings ends are perfect for threaded connections.

Our Seamless Steel Pipe complies with various industry standards, including API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, and ASTM A53-2. This ensures that our product is of the highest quality, meeting the strictest standards for performance and safety.

For customers needing a Low Temperature Steel Pipe, we offer our Alloy Seamless Steel Pipe. This product is designed for use in lowtemperature environments, providing excellent performance and durability even in extreme conditions. Our Alloy Seamless Steel Pipe is made of high-quality materials, ensuring reliable performance and long-lasting durability.

For customers needing an Alloy Seamless Steel Pipe, our Seamless Steel Pipe is an excellent choice. With its superior strength and durability, it is an ideal choice for heavy-duty projects that require the highest level of performance and reliability.

Features:

Product Name: Seamless Steel Pipe Technology: Hot Rolled, Cold Rolled Standard: API ASTM JIS API 5CT API 5L ASTM A106-2006 ASTM A53-2 Ends: Beveled Thread+Couplings Usage: **Pipeline Transport** Oil/Gas Drilling Machinery Industry Features High Pressure Boiler Steel Pipe Structural Steel Pipes Low Temperature Steel Pipe

Technical Parameters:

| Product Name: | Seamless Steel Pipe |
|---------------------|---|
| Material: | Carbon Steel, Alloy Steel |
| Wall Thickness: | 1-20mm (0.04 Inch - 0.78 Inch) |
| Process: | Hot Rolled, Cold Rolled, Cold Drawn |
| Length: | 6M, 12M OR According To Customer Requirements |
| Standard: | API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2 |
| Technology: | Hot Rolled, Cold Rolled |
| Processing Service: | Bending, Punching, Cutting |
| Usage: | Pipeline Transport, Oil/Gas Drilling, Machinery Industry |
| Ends: | Beveled, Thread+Couplings |

Applications:

BaoYang Seamless Steel Pipe is a high-quality product that is widely used in various industries due to its excellent properties. It is manufactured in Hebei, China, using the latest technology and processes, including hot rolled, cold rolled, and cold drawn. It comes in different models, including low temperature steel pipes, pipeline steel pipes, and seamless steel pipes for fluid transportation. The BaoYang Seamless Steel Pipe is ideal for pipeline transport, oil and gas drilling, and machinery industry. Its excellent properties make it suitable for use in extreme conditions, such as high temperature and high pressure. Its beveled ends with thread and couplings

make it easy to install and connect to other pipes.

The BaoYang Seamless Steel Pipe is a versatile product that can be used in various applications, including bending, punching, and cutting. Its high-quality materials and advanced manufacturing processes make it durable and reliable, ensuring that it can withstand the toughest conditions.

If you are looking for a high-quality seamless steel pipe, BaoYang Seamless Steel Pipe is the best choice. It is a versatile product that can be used in various applications, including low temperature steel pipe, pipeline steel pipe, and seamless steel pipe for fluid transportation. Its advanced manufacturing processes and excellent properties make it the preferred choice for many industries.

Support and Services:

Our technical support team is available to help with any questions or issues related to our Seamless Steel Pipe product. We offer services such as:

Product installation guidance and support

Product maintenance advice and troubleshooting

Product performance evaluation and optimization

Customized solutions to meet specific requirements

We are committed to providing our customers with the highest level of support and service to ensure the seamless and efficient operation of our products. Contact us for more information or to speak with a member of our technical support team.

Packing and Shipping:

Product Packaging: Plastic caps on both ends Bundle with steel strips Wrapped with waterproof plastic Packed in wooden cases or pallets Product Shipping: Delivered by sea, air or road transportation Shipping port: Tianjin, Shanghai, Qingdao Delivery time: 15-30 days after receiving the deposit

Documents provided: Commercial Invoice, Packing List, Bill of Lading, Certificate of Origin, Quality Certificate
