

Cold Rolled Low Temperature Beveled Thread Carbon Steel Pipe

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Certification: CE & ISO
- Model Number: Seamless Steel Pipe
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Standard Export Packing
- Delivery Time: 7~15 working days
- Payment Terms: D/A, D/P, T/T

Product Specification

- Name: Seamless Steel Pipe
- Material: Carbon Steel Alloy Steel
- Ends: Beveled Thread+Couplings
- Process: Hot Rolled Cold Rolled Cold Drawn
- Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry
- Technology: Hot Rolled Cold Rolled
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
- Highlight: **Beveled Thread Carbon Steel Pipe,
Cold Rolled Carbon Steel Pipe,
Low Temperature Carbon Steel Pipe**

Product Description

Product Description:

The Seamless Steel Pipe has a wall thickness range of 1-20mm (0.04 Inch - 0.78 Inch), making it suitable for a wide range of applications. The product is available in different standards, including API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, and ASTM A53-2, ensuring that it meets the requirements of different industries and applications.

Carbon Steel Seamless Pipe is a type of Seamless Steel Pipe that is widely used in the oil and gas industry, as well as in structural applications. The product is designed to provide excellent strength and durability, making it suitable for use in harsh environments. Structural Steel Pipes are used in a range of applications, including building and construction, infrastructure projects, and industrial facilities. The Seamless Steel Pipe is an excellent choice for structural applications, as it provides excellent strength and durability, making it suitable for use in a range of environments.

The Seamless Steel Pipe is available in different lengths, including 6M, 12M, or according to customer requirements. This ensures that the product can be used in different applications and industries, providing excellent performance and durability.

In conclusion, the Seamless Steel Pipe is a high-quality product that offers excellent performance and durability. It is suitable for use in a range of applications and industries, including low-temperature environments, and it is available in different standards and lengths to meet the requirements of different applications. Whether you need a Low Temperature Steel Pipe, Carbon Steel Seamless Pipe, or Structural Steel Pipes, the Seamless Steel Pipe is an excellent choice that will provide excellent performance and durability.

Features:

Product Name: Seamless Steel Pipe

Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry

Length: 6M 12M OR According To Customer Requirements

Material: Carbon Steel Alloy Steel

Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)

Features:

Structural Steel Pipes

High Pressure Boiler Steel Pipe

Oil and Gas Steel Pipes

Technical Parameters:

Attribute	Value
Material	Carbon Steel, Alloy Steel
Process	Hot Rolled, Cold Rolled, Cold Drawn
Ends	Beveled, Thread+Couplings
Standard	API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Name	Seamless Steel Pipe
Length	6M, 12M or according to customer requirements
Usage	Pipeline Transport, Oil/Gas Drilling, Machinery Industry
Processing Service	Bending, Punching, Cutting
Technology	Hot Rolled, Cold Rolled
Wall Thickness	1-20mm (0.04 Inch - 0.78 Inch)

This Seamless Steel Pipe is suitable for Structural Steel Pipes, Pipeline Steel Pipe and Seamless Steel Pipe for Fluid Transportation.

Applications:

Structural Steel Pipes: BaoYang Seamless Steel Pipe is widely used in the construction industry as a structural steel pipe. It is commonly used in the construction of bridges, buildings, and other structures. The seamless construction of the pipe ensures that it is strong and durable, making it an ideal choice for structural applications.

Oil and Gas Steel Pipes: BaoYang Seamless Steel Pipe is well-suited for use in the oil and gas industry. Its ability to withstand high pressure and temperature makes it an ideal choice for transporting oil and gas. The beveled thread+couplings ends make it easy to connect to other pipes, ensuring a secure and reliable connection.

High Pressure Boiler Steel Pipe: BaoYang Seamless Steel Pipe is also commonly used in high-pressure boiler applications. Its ability to withstand high pressure and temperature makes it a reliable choice for use in boilers. The hot rolled, cold rolled, and cold drawn processes used in the manufacturing of the pipe ensure that it is of the highest quality and can withstand rigorous use.

With its processing services of bending, punching, and cutting, BaoYang Seamless Steel Pipe can be customized to meet the specific needs of different customers. It is available in different standards, including API, ASTM, and JIS, as well as API 5CT, API 5L, ASTM A106-2006, and ASTM A53-2. This ensures that it can be used in a wide range of applications, making it a versatile and reliable product. Overall, BaoYang Seamless Steel Pipe is a high-quality product that is well-suited for a wide range of applications. Its reliability, durability, and versatility make it a popular choice among customers in various industries.

Support and Services:

Our Seamless Steel Pipe product comes with comprehensive technical support and services to ensure maximum performance and customer satisfaction. Our team of experts is available to provide guidance on product selection, installation, and maintenance. We also offer customization options to meet specific project requirements. In case of any issues, our technical support team is available 24/7 to provide prompt assistance and resolution. Additionally, we provide training and educational resources to help customers optimize the use of our Seamless Steel Pipe product.

Packing and Shipping:

Product Packaging:

Seamless steel pipes are packaged in bundles or wooden cases. The bundles are secured with steel strapping and covered with plastic or woven cloth to protect the pipes from damage during transportation and storage.

Shipping:

Seamless steel pipes are shipped by sea or by land. We work with reliable shipping companies to ensure that your order is delivered safely and on time. The shipping cost will be calculated based on the weight and destination of the order.
