

Cold Rolled Carbon Steel Seamless Pipe for Heavy Duty Applications

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Certification: CE & ISO
- Model Number: Seamless Steel Pipe
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: 500000Pcs/Per Month

Product Specification

- Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
- Ends: Beveled Thread+Couplings
- Name: Seamless Steel Pipe
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Material: Carbon Steel Alloy Steel
- Processing Service: Bending, Punching, Cutting
- Technology: Hot Rolled Cold Rolled
- Length: 6M 12M OR According To Customer Requirements
- Highlight: **Cold Rolled Seamless Steel Pipe,
Heavy Duty Seamless Steel Pipe,
Heavy Duty Carbon Steel Seamless Pipe**

Product Description

Product Description:

The Seamless Steel Pipe is a versatile and durable product that is widely used in various industries, including oil and gas, pipelines, and structural applications. It is designed with Beveled Thread+Couplings ends, making it easy to connect and assemble with other components.

Constructed from high-quality materials, this seamless steel pipe is available in both Carbon Steel and Alloy Steel variants. The use of these materials ensures superior strength, corrosion resistance, and longevity, making it suitable for demanding applications in Oil and Gas Steel Pipes, Pipeline Steel Pipe, and Structural Steel Pipes.

Manufactured through a precise and controlled process, the Seamless Steel Pipe is produced using a combination of Hot Rolled, Cold Rolled, and Cold Drawn techniques. This meticulous process ensures uniformity in dimensions, smooth surface finish, and consistent mechanical properties.

With a wall thickness ranging from 1mm to 20mm (0.04 Inch - 0.78 Inch), this seamless steel pipe offers flexibility in applications where varying pressure and load requirements are present. The precise wall thickness also contributes to enhanced structural integrity and reliability, making it a preferred choice for critical operations.

Whether you need a reliable solution for transporting fluids, gases, or structural components, the Seamless Steel Pipe is designed to meet your specific requirements. Its versatility, durability, and performance make it an ideal choice for a wide range of industrial applications.

Features:

Product Name: Seamless Steel Pipe

Name: Seamless Steel Pipe

Technology: Hot Rolled Cold Rolled

Length: 6M 12M OR According To Customer Requirements

Processing Service: Bending, Punching, Cutting

Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2

Technical Parameters:

Technology	Hot Rolled, Cold Rolled
Usage	Pipeline Transport, Oil/Gas Drilling, Machinery Industry
Length	6M, 12M OR According To Customer Requirements
Ends	Beveled Thread+Couplings
Name	Seamless Steel Pipe
Processing Service	Bending, Punching, Cutting
Wall Thickness	1-20mm (0.04 Inch - 0.78 Inch)
Material	Carbon Steel, Alloy Steel
Standard	API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Process	Hot Rolled, Cold Rolled, Cold Drawn

Applications:

BaoYang Seamless Steel Pipe is a versatile product that finds application in various industries and scenarios. The product is manufactured in hebei, china, ensuring high-quality standards and reliable performance.

One of the key application occasions for BaoYang Seamless Steel Pipe is in the oil and gas industry. The seamless design of the pipe makes it ideal for use in transporting oil and gas, ensuring efficient and safe delivery. The pipeline steel pipe variant of the product is specifically suited for constructing pipelines for the transportation of oil, gas, and other fluids.

Another important scenario where BaoYang Seamless Steel Pipe excels is in low-temperature environments. The product is designed to withstand extreme temperatures, making it suitable for applications in industries where low-temperature steel pipes are required.

With a length of 6M or 12M, BaoYang Seamless Steel Pipe can be customized according to customer requirements, ensuring flexibility in various projects. Additionally, the processing service options of bending, punching, and cutting make it a versatile solution for different construction needs.

The technology used in the production of BaoYang Seamless Steel Pipe includes hot rolled and cold rolled processes, meeting industry standards such as API, ASTM, and JIS. The product complies with standards like API 5CT, API 5L, ASTM A106-2006, and ASTM A53-2, ensuring its reliability and performance.

Customization:

Product Customization Services for Seamless Steel Pipe:

Brand Name: BaoYang

Model Number: Seamless Steel Pipe

Place of Origin: Hebei, China
Technology: Hot Rolled, Cold Rolled
Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Process: Hot Rolled, Cold Rolled, Cold Drawn
Length: 6M, 12M, or according to customer requirements
Name: Seamless Steel Pipe
Attributes: Pipeline Steel Pipe, High Pressure Boiler Steel Pipe, Alloy Seamless Steel Pipe

Support and Services:

- Our Product Technical Support and Services for Seamless Steel Pipe include:
- Expert assistance with product selection and specifications
 - Guidance on installation and maintenance best practices
 - Troubleshooting and problem-solving support
 - Access to product documentation and resources
 - Training and educational materials for seamless steel pipe usage
