

## Low Temperature Alloy Steel Seamless Steel Pipe With Punching Processing Service And Beveled Thread Couplings

### Our Product Introduction

for more products please visit us on [pipe-seamless.com](http://pipe-seamless.com)

#### Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Model Number: Seamless Steel Pipe

#### Product Specification

- Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry
- Material: Carbon Steel Alloy Steel
- Name: Seamless Steel Pipe
- Technology: Hot Rolled Cold Rolled
- Ends: Beveled Thread+Couplings
- Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Processing Service: Bending, Punching, Cutting
- Highlight: **Beveled Thread Couplings Seamless Steel Pipe, Low Temperature Seamless Steel Pipe, Punching Processing Seamless Steel Pipe**

## Product Description

### Product Description:

The Carbon Steel Seamless Pipe is a versatile product that offers high performance in various applications. With a seamless construction and durable material, this pipe is suitable for industries such as oil and gas, construction, and automotive.

Manufactured using different processes, including Hot Rolled, Cold Rolled, and Cold Drawn, the Seamless Steel Pipe is designed to meet the highest quality standards. The seamless construction ensures a smooth interior surface, making it ideal for conveying fluids and gases under high pressure.

With a wall thickness ranging from 1mm to 20mm (0.04 Inch - 0.78 Inch), this Carbon Steel Seamless Pipe provides the necessary strength and durability for demanding applications. The varied wall thickness options allow for customization based on specific project requirements.

Compliant with industry standards such as API, ASTM, and JIS, the Seamless Steel Pipe is designed to meet the stringent requirements of various sectors. It conforms to standards such as API 5CT, API 5L, ASTM A106-2006, and ASTM A53-2, ensuring reliability and performance.

Offering versatile processing services, including Bending, Punching, and Cutting, the Seamless Steel Pipe can be tailored to meet specific project needs. Whether for structural purposes or fluid transportation, this pipe can be customized to fit various applications.

Overall, the Carbon Steel Seamless Pipe is a high-quality product that combines durability, reliability, and versatility. With its seamless construction, varied wall thickness options, compliance with industry standards, and customizable processing services, this pipe is an ideal choice for a wide range of industrial applications.

### Features:

Product Name: Seamless Steel Pipe

Ends: Beveled Thread+Couplings

Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry

Technology: Hot Rolled Cold Rolled

Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)

Material: Carbon Steel Alloy Steel

### Technical Parameters:

Standard	API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Name	Seamless Steel Pipe
Usage	Pipeline Transport, Oil/Gas Drilling, Machinery Industry
Material	Carbon Steel Alloy Steel
Process	Hot Rolled Cold Rolled Cold Drawn
Length	6M 12M OR According To Customer Requirements
Processing Service	Bending, Punching, Cutting
Technology	Hot Rolled Cold Rolled
Wall Thickness	1-20mm (0.04 Inch - 0.78 Inch)
Ends	Beveled Thread+Couplings

### Applications:

BaoYang Seamless Steel Pipe is a high-quality product designed for various industrial applications. Made in Hebei, China, this seamless steel pipe is known for its durability and reliability. With advanced hot rolled and cold rolled technology, this product is suitable for a wide range of processing services including bending, punching, and cutting.

The Seamless Steel Pipe is commonly used in pipeline transport, oil and gas drilling, and machinery industry. Its seamless design ensures smooth flow of fluids, making it ideal for fluid transportation. The pipe is also well-suited for oil and gas steel pipes due to its strength and corrosion resistance.

One of the key features of the Seamless Steel Pipe is its ability to withstand low temperatures, making it a preferred choice for applications requiring reliable performance in challenging environments. Whether it is for transporting liquids, drilling for oil and gas, or supporting machinery operations, this seamless steel pipe delivers exceptional performance.

Manufactured through a process of hot rolled, cold rolled, and cold drawn techniques, the BaoYang Seamless Steel Pipe meets the highest quality standards. Its versatility in processing services allows for customization to meet specific project requirements.

### Customization:

Customize your Alloy Seamless Steel Pipe with our Product Customization Services for the BaoYang Seamless Steel Pipe.

Model Number: Seamless Steel Pipe

Place of Origin: Hebei, China

Technology: Hot Rolled, Cold Rolled

Usage: Pipeline Transport, Oil/Gas Drilling, Machinery Industry  
Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)  
Name: Seamless Steel Pipe  
Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2  
Customize your Pipeline Steel Pipe with options for Low Temperature Steel Pipe.

**Support and Services:**

- Our Product Technical Support and Services for Seamless Steel Pipe include: -----
- Expert technical assistance for product selection and application
  - Assistance with installation and maintenance guidelines
  - On-site support for troubleshooting and problem-solving
  - Training programs for proper handling and usage of our products
  - Regular updates on product improvements and innovations
