

## Hot Rolled Production Sea Shipping ASTM A53 Seamless Carbon Steel Tube Pipe

### Our Product Introduction

for more products please visit us on [pipe-seamless.com](http://pipe-seamless.com)

#### Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Certification: CE & ISO
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: 5000000Pcs/Per Month

#### Product Specification

- Shipping Method: By Sea
- Processing Service: Welding, Cutting, Bending, Decoiling
- Main Product: Seamless Carbon Steel Pipe
- Grade: A, B, C
- Delivery Condition: Annealing
- Length: Random Length, Fixed Length, SRL, DRL
- Production: Hot Rolled
- Package: Wooden Cases, Pallets, Etc.
- Highlight: **ASTM A53 Carbon Steel Pipe,  
Sea Shipping Carbon Steel Pipe,  
Hot Rolled seamless carbon steel tube**

## Product Description

### Product Description:

Introducing our high-quality Carbon Steel Seamless Pipe, a versatile and durable product suitable for various industrial applications. Manufactured using advanced technology and top-grade materials, this ASTM A192 carbon steel pipe offers outstanding performance and reliability.

Key Product Attributes:

**Length:** Available in Random Length, Fixed Length, SRL (Single Random Length), and DRL (Double Random Length) options for flexibility in different project requirements.

**Alloy Or Not:** Non-alloy Carbon Steel composition ensures excellent strength and corrosion resistance, making it a reliable choice for demanding environments.

**Grade:** Available in Grade A, Grade B, and Grade C specifications to meet diverse performance needs.

**Processing Service:** Our Carbon Steel Seamless Pipe can be customized with various processing services such as Welding, Cutting, Bending, and Decoiling to suit specific project requirements.

**Production:** Manufactured through the Hot Rolled process to ensure uniformity and consistency in quality.

Designed to meet the rigorous demands of industrial applications, our carbon steel line pipe delivers exceptional performance and durability. Whether you need a reliable piping solution for oil and gas, construction, or machinery, our Carbon Steel Seamless Pipe is the ideal choice.

With its non-alloy carbon steel composition, this pipe offers enhanced strength and longevity, making it a cost-effective solution for your project needs. The availability of different grades allows you to select the most suitable option based on your specific requirements.

Our Carbon Steel Seamless Pipe is not only durable but also highly versatile. The various processing services available enable you to customize the pipe to meet your exact specifications. Whether you need welding for structural applications, cutting for precise lengths, bending for complex designs, or decoiling for further processing, our pipe can be tailored to your needs.

Manufactured through the Hot Rolled process, our Carbon Steel Seamless Pipe undergoes stringent quality control measures to ensure consistent performance and reliability. This production method results in a seamless pipe with excellent structural integrity and uniformity, making it a dependable choice for critical applications.

Invest in our premium Carbon Steel Seamless Pipe today and experience the superior quality and performance it offers. Perfect for a wide range of industrial applications, this pipe is a reliable and cost-effective solution for your piping needs.

### Features:

Product Name: Carbon Steel Seamless Pipe

Standards: ASTM/ASME/DIN/En

Length:

Random Length

Fixed Length

SRL

DRL

Grade: A, B, C

Hs Code: 7304399000

Package:

Wooden Cases

Pallets

Etc.

### Technical Parameters:

Thickness	STD-SCH80, SGP DIN
Standards	ASTM/ASME/DIN/EN
Production	Hot Rolled
Alloy Or Not	Non-alloy Carbon Steel
Shipping Method	By Sea
Length	Random Length, Fixed Length, SRL, DRL
Grade	A, B, C
Connection	Welding
Package	Wooden Cases, Pallets, Etc.
Processing Service	Welding, Cutting, Bending, Decoiling

### Applications:

The BaoYang Carbon Steel Seamless Pipe, originating from Hebei, China, is a versatile product suitable for various application occasions and scenarios. With its high-quality ASTM A179 carbon steel material, this seamless pipe is ideal for use in a wide range of industries. Commonly used as a carbon steel line pipe, the BaoYang seamless pipe is well-suited for applications such as oil and gas transportation, structural support in construction, machinery manufacturing, and more. Its seamless design ensures a reliable and leak-free performance, making it a preferred choice for demanding environments.

When it comes to shipping, the BaoYang Carbon Steel Seamless Pipe is typically transported by sea due to its weight and size. To ensure its protection during transit, the pipes are carefully packaged in wooden cases, pallets, or other suitable packaging materials. Thanks to the processing services offered, such as welding, cutting, bending, and decoiling, the BaoYang seamless pipe can be customized to meet specific project requirements. Whether it is for creating custom lengths, angles, or shapes, the processing services provided add value and flexibility to the product.

The seamless design of the BaoYang Carbon Steel Pipe allows for a strong and durable connection through welding. This ensures that the pipe sections join securely, providing a seamless flow of liquids or gases without the risk of leakage.

In summary, the BaoYang Carbon Steel Seamless Pipe is a top choice for those in need of a reliable and high-quality pipe solution. Its ASTM A179 carbon steel material, versatility in processing, and convenient shipping method make it a preferred option for a wide range of industrial applications.

**Customization:**

Product Customization Services for the Carbon Steel Seamless Pipe:-----

Brand Name: BaoYang  
Place of Origin: Hebei, China  
HS Code: 7304399000  
Processing Service: Welding, Cutting, Bending, Decoiling  
Delivery Condition: Annealing  
Alloy Or Not: Non-alloy Carbon Steel  
Shipping Method: By Sea  
Keywords: ASTM A333 carbon steel pipe, ASTM A53 carbon steel pipe, carbon steel

**Support and Services:**

Our company offers comprehensive technical support and services for our Carbon Steel Seamless Pipe product. Our team of experts is available to assist you with any questions or concerns you may have regarding the product specifications, installation, maintenance, or troubleshooting.

We are committed to providing top-notch customer service and ensuring that our clients have a positive experience with our Carbon Steel Seamless Pipe. Whether you need assistance with product selection, customization, or after-sales support, our dedicated team is here to help you every step of the way.

Additionally, we provide training programs and resources to help you maximize the performance and longevity of your Carbon Steel Seamless Pipe. Our goal is to ensure that you get the most out of our product and achieve the desired results for your projects or applications.
