

Random Length Carbon Steel Seamless Pipes For Industrial Applications Produced By Hot Rolling

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang

COV8 12 B26

seamless steel 100

Product Specification

- Processing Service: Welding, Cutting, Bending, Decoiling
- Main Product: Seamless Carbon Steel Pipe
- Length: Random Length, Fixed Length, SRL, DRL
- Standards: ASTM/ASME/DIN/En
- Production: Hot Rolled
- Thickness: STD-SCH80, SGP DIN
- Hs Code: 7304399000
- Package: Wooden Cases, Pallets, Etc.
- Highlight: **Hot Rolling Carbon Steel Seamless Pipes,
Random Length Carbon Steel Seamless Pipes,
Industrial Carbon Steel Seamless Pipes**

Product Description

Product Description:

The Carbon Steel Seamless Pipe is a top-quality product designed to meet the highest standards in the industry. This seamless pipe is known for its exceptional performance and reliability, making it a popular choice for various applications.

Delivery Condition: Annealing

Grade: A, B, C

Standards: ASTM/ASME/DIN/En

Main Product: Seamless Carbon Steel Pipe

Hs Code: 7304399000

When it comes to quality and durability, the Carbon Steel Seamless Pipe stands out as a superior choice. It is meticulously crafted to deliver outstanding performance in various industrial settings. The seamless design ensures smooth flow and enhanced efficiency. With its annealing delivery condition, this carbon steel pipe offers excellent strength and toughness. The annealing process enhances the pipe's properties, making it more durable and resistant to wear and tear. This ensures a longer lifespan and reliable performance in demanding environments.

The Carbon Steel Seamless Pipe is available in Grades A, B, and C, providing flexibility and versatility to meet different project requirements. Whether you need a high-strength pipe for structural applications or a pipe with enhanced corrosion resistance, this product has you covered.

Compliant with ASTM, ASME, DIN, and En standards, this seamless carbon steel pipe guarantees consistency and quality. It meets stringent industry specifications to ensure safe and reliable operation in various industrial applications.

One of the main products in our lineup, the Carbon Steel Seamless Pipe is widely used in a range of industries, including construction, oil and gas, petrochemical, and more. Its seamless construction eliminates the risk of leaks and ensures efficient fluid transportation.

With an HS Code of 7304399000, this carbon steel pipe is easily identifiable and classified for international trade. Its standardized coding simplifies the import and export processes, making it a convenient choice for global supply chains.

For specific applications that require ASTM A179 carbon steel pipe, ASTM A333 carbon steel pipe, or ASTM A519 carbon steel pipe, the Carbon Steel Seamless Pipe is a reliable solution. Its high-quality construction and adherence to industry standards make it a preferred choice for demanding projects.

Features:

Product Name: Carbon Steel Seamless Pipe

Thickness: STD-SCH80, SGP DIN

Main Product: Seamless Carbon Steel Pipe

Hs Code: 7304399000

Shipping Method: By Sea

Connection: Welding

Technical Parameters:

| | |
|--------------------|--------------------------------------|
| Processing Service | Welding, Cutting, Bending, Decoiling |
| Grade | A, B, C |
| Package | Wooden Cases, Pallets, Etc. |
| Connection | Welding |
| Alloy Or Not | Non-alloy Carbon Steel |
| Main Product | Seamless Carbon Steel Pipe |
| Standards | ASTM/ASME/DIN/En |
| Delivery Condition | Annealing |
| Hs Code | 7304399000 |
| Production | Hot Rolled |

Applications:

BaoYang Carbon Steel Seamless Pipe is a high-quality product originating from Hebei, China. This seamless carbon steel pipe is a non-alloy product, making it durable and reliable for various applications. It is available in grades A, B, and C, ensuring that customers can choose the grade that best suits their specific needs.

One of the key applications of the BaoYang Carbon Steel Seamless Pipe is in the manufacturing of ASTM A179 carbon steel pipes. These pipes are widely used in various industries due to their high thermal conductivity and excellent corrosion resistance. The seamless nature of the pipe ensures a smooth flow of fluids, making it ideal for applications where efficiency is crucial.

Another common scenario where the BaoYang Carbon Steel Seamless Pipe is utilized is in the production of carbon steel boiler tubes. These tubes are essential components in boilers and heat exchangers, where they help transfer heat efficiently and safely. The seamless construction of the pipe enhances the overall performance and longevity of the boiler tubes.

Furthermore, the ASTM A519 carbon steel pipe is another product that can be manufactured using the BaoYang Carbon Steel Seamless Pipe. These pipes are known for their high tensile strength and excellent machinability, making them suitable for a wide range of

mechanical applications.

When it comes to delivery, the BaoYang Carbon Steel Seamless Pipe is annealed to ensure optimal hardness and machinability. This delivery condition further enhances the usability of the pipe in various applications, providing customers with a product that meets their specific requirements.

For shipping, the BaoYang Carbon Steel Seamless Pipe is typically transported by sea, offering a reliable and cost-effective shipping method for customers worldwide. This ensures that the product reaches its destination safely and on time, meeting the needs of customers in different regions.

Customization:

Product Customization Services for Carbon Steel Seamless Pipe -----
Brand Name: BaoYang
Place of Origin: hebei, china
Standards: ASTM/ASME/DIN/En
Package: Wooden Cases, Pallets, Etc.
Length: Random Length, Fixed Length, SRL, DRL
Processing Service: Welding, Cutting, Bending, Decoiling
Hs Code: 7304399000
Keywords: carbon steel, ASTM A53 carbon steel pipe, ASTM A210 carbon steel pipe

Support and Services:

Our Product Technical Support and Services for Carbon Steel Seamless Pipe include: -----
- Expert assistance with product selection and specifications
- Guidance on installation and maintenance best practices
- Troubleshooting support for any issues that may arise
- Training programs to enhance customer knowledge and skills
