

Annealing Delivery Condition Carbon Steel Seamless Pipe ASTM A179

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days

Product Specification

- Package: Wooden Cases, Pallets, Etc.
- Main Product: Seamless Carbon Steel Pipe
- Hs Code: 7304399000
- Standards: ASTM/ASME/DIN/En
- Length: Random Length, Fixed Length, SRL, DRL
- Grade: A, B, C
- Production: Hot Rolled
- Connection: Welding
- Highlight: **ASTM A179 Annealing Carbon Steel Pipe, Seamless Annealing Steel Pipe, Seamless Annealing Carbon Steel Pipe**

Product Description

Product Description:

The Carbon Steel Seamless Pipe is a high-quality product designed for various industrial applications. It is manufactured with precision and meets the required standards for performance and durability. This seamless pipe is suitable for a wide range of uses, thanks to its exceptional quality and construction.

One of the key attributes of the Carbon Steel Seamless Pipe is its thickness options. It is available in various thicknesses ranging from STD to SCH80, ensuring that you can select the most suitable option based on your specific requirements. Additionally, it is also available in SGP DIN thickness for added versatility.

When it comes to shipping, the preferred method for delivering the Carbon Steel Seamless Pipe is by sea. This ensures safe and efficient transportation of the product to your desired location, whether it's for a small-scale project or large industrial application.

The Carbon Steel Seamless Pipe is categorized as a main product in the industry, known for its reliability and performance. It is specifically designed as a seamless carbon steel pipe, guaranteeing seamless flow and operation in various systems and applications. Production-wise, the Carbon Steel Seamless Pipe is manufactured using the hot rolled method. This production technique ensures that the pipe is crafted with precision and accuracy, meeting the required industry standards for quality and performance.

For packaging and storage, the Carbon Steel Seamless Pipe is typically packaged in wooden cases, pallets, and other suitable materials. This packaging method ensures that the product is protected during transportation and storage, maintaining its quality and integrity.

Overall, the Carbon Steel Seamless Pipe, whether ASTM A192, ASTM A333, or any other relevant standard, is a top-of-the-line product designed to meet the demands of various industrial applications. With its range of thickness options, seamless design, hot rolled production, and sea shipping method, this seamless pipe is a reliable and versatile choice for your project needs.

Features:

Product Name: Carbon Steel Seamless Pipe

Grade: A, B, C

Shipping Method: By Sea

Package: Wooden Cases, Pallets, Etc.

Production: Hot Rolled

Alloy Or Not: Non-alloy Carbon Steel

Technical Parameters:

Processing Service	Welding, Cutting, Bending, Decoiling
Alloy Or Not	Non-alloy Carbon Steel
Connection	Welding
Shipping Method	By Sea
Package	Wooden Cases, Pallets, Etc.
Production	Hot Rolled
Length	Random Length, Fixed Length, SRL, DRL
Main Product	Seamless Carbon Steel Pipe
Hs Code	7304399000
Grade	A, B, C

Applications:

The BaoYang carbon steel seamless pipe is a versatile product suitable for a wide range of applications across different industries. With its origin in Hebei, China, this product is known for its high quality and reliability. The delivery condition of the pipe is annealing, ensuring optimal performance and durability.

One of the key features of the BaoYang carbon steel seamless pipe is its versatility in thickness, ranging from STD to SCH80, as well as SGP DIN standards. This makes it suitable for various pressure and temperature requirements, making it an ideal choice for demanding applications.

Compliant with ASTM/ASME/DIN/En standards, the BaoYang carbon steel seamless pipe is available in grades A, B, and C, offering options for different strength and corrosion resistance needs. This ensures that the product meets industry standards and specifications, providing peace of mind to customers.

With processing services such as welding, cutting, bending, and decoiling available, the BaoYang carbon steel seamless pipe can be customized to suit specific project requirements. This flexibility makes it a practical choice for a wide range of construction and industrial projects.

The ASTM A210 carbon steel pipe and ASTM A333 carbon steel pipe are just a few examples of the applications where the BaoYang carbon steel seamless pipe excels. Its durability, strength, and corrosion resistance make it suitable for use in various scenarios, including oil and gas pipelines, construction projects, and industrial machinery.

Customization:

Product Customization Services for the ASTM A192 carbon steel pipe: -----
Brand Name: BaoYang
Place of Origin: hebei, china
Alloy Or Not: Non-alloy Carbon Steel
Grade: A, B, C
Length: Random Length, Fixed Length, SRL, DRL
Standards: ASTM/ASME/DIN/En
Shipping Method: By Sea

Support and Services:

Our company offers comprehensive technical support and services for our Carbon Steel Seamless Pipe product. Our team of ----- experienced professionals is available to assist you with any technical inquiries, product specifications, or installation guidance you may require.
We provide a range of services to ensure that our customers have a seamless experience when using our Carbon Steel Seamless Pipe. These services may include product training, troubleshooting assistance, and on-site support if needed.
Our goal is to help you maximize the performance and longevity of your Carbon Steel Seamless Pipe through our dedicated technical support and services. Please do not hesitate to reach out to us for any assistance you may need.
